

# AMANDA J KENDAL-BROWN

Design Systems Engineer | Frontend Engineer | UX Engineering

+1-305-586-8344 | amanda.kendalbrown@gmail.com | Fairfax, VA 22033, United States

## SUMMARY

Design Systems Engineer with 10+ years of experience designing, developing, and governing scalable, user-centered digital products. I thrive at the intersection of design and frontend engineering, working across the design system lifecycle and partnering with Product, Design, and Engineering teams to keep complex experiences consistent, accessible, and production-ready. Combining graduate-level Human-Computer Interaction training with over a decade of frontend engineering experience, I bring a systems-thinking approach to component libraries, design tokens, UX, and modern web development, leaning on AI-assisted tooling to help bridge the gap between design vision and technical implementation.

## KEY ACHIEVEMENTS

- Optimized Website Performance**  
Cut page load times by **40%** through code optimization and performance tuning.
- Codebase Migration Completion**  
Led a migration of **150,000+ lines** of JavaScript to TypeScript, improving stability and maintainability.
- Enhanced SEO Discoverability**  
Boosted user engagement by **35%** through improved SEO strategies and site structure.
- Optimized API Performance**  
Reduced average API response times by **200ms**, enhancing overall user experience.
- Figma Prototype Design**  
Created high-fidelity Figma prototypes that clarified UI flows and improved usability.

## EXPERIENCE

### Senior Software Engineer, Front End

- Capital One | 11/2025 - Present | McLean, VA
- Partnered with designers to implement and maintain reusable Vue components within the Connex Design System, keeping an internal agent-facing platform aligned with design standards, accessibility requirements, and UI guidelines.
  - Contributed to the Lifecycle Modernization initiative by migrating legacy Vue components to TypeScript.
  - Collaborated with a cross-functional Agile team of four engineers to deliver new features and platform enhancements.
  - Performed code reviews and championed frontend best practices to improve code quality and maintainability.

### Web Developer III

- Automox | 04/2021 - 08/2025 | Chandler, AZ
- Designed and built reusable UI components that accelerated feature delivery by 30% while improving consistency across products.
  - Engineered responsive web applications using Storyblok, improving Lighthouse performance scores by 20–25%.
  - Maintained RESTful API endpoints supporting thousands of daily requests.
  - Led a 150K+ line migration from JavaScript to TypeScript, reducing production bugs by approximately 40%.
  - Created high-fidelity Figma prototypes, partnering with stakeholders to refine UX direction and reduce design approval cycles by nearly 50%.
  - Coordinated development across teams spanning five or more time zones, consistently delivering sprint commitments.

### Application Developer

- Oracle | 11/2015 - 04/2021 | Chicago, IL
- Converted 300+ client files into RML templates with 99.9% formatting accuracy.
  - Enhanced backend Python/SQL components supporting 20+ enterprise accounts.
  - Validated deployments via Jenkins, achieving a 100% QA success rate.
  - Resolved 10–15 complex JIRA tickets per week, reducing backlog by 30–35%.
  - Elevated code quality through regular peer reviews and documentation updates.

## EDUCATION

- MS Human Computer Interaction** | GPA **3.75 / 4.0**  
DePaul University  
2017 - 2019 | Chicago, IL  
• Completed 28.5 credits toward MS in Human-Computer Interaction.
- MS Computer Science** | GPA **3.5 / 4.0**  
Northeastern Illinois University  
2014 - 2015 | Chicago, IL  
• Completed 24 credits toward MS in Computer Science.
- BA Music**  
University of Iowa  
2007 - 2012 | Iowa City, IA

## CERTIFICATIONS

- AI Engineering Specialization  
**Scrimba** - Sep 2025 - [W3YS4GYE5MOQ](#)
- Meta Front-End Developer Specialization  
**Meta** - Apr 2025 - [U82W9O43ICKK](#)
- Google UX Design Specialization  
**Google** - Sep 2024 - [44N444UAAEV2](#)
- The Complete JavaScript Course - Beginner to Professional  
**Udemy** - Jan 2021 - [UC-8c1e0815-aa37-4180-ac2d-a5553ba83167](#)

## DESIGN SYSTEMS & TECHNICAL SKILLS

- Frontend & UI Development**  
React, Next.js, Vue, React Native, Electron, TypeScript, JavaScript, HTML, CSS, SCSS, Material UI, Tailwind CSS, Bootstrap, Component Libraries
- Design Systems & UX**  
Figma, Sketch, Adobe XD, Axure, FullStory, Design Tokens, Figma-to-Code Workflows, Interaction Design, User-Centered Design, Responsive Design, Accessibility (WCAG, WAI-ARIA), Design Documentation, Design Specifications
- Web Architecture & Performance**  
REST APIs, GraphQL, Cloudflare Pages & Workers, Core Web Vitals, SEO, Performance Optimization, Systems Thinking
- Development Tools**  
Git, GitHub, GitHub Actions, GitHub Copilot, VS Code, Claude AI, Windsurf IDE, Terminal (Bash), npm, Vite, Jenkins, Splunk, Netlify, Google Cloud

## EXPERIENCE

### Application Programmer V

Bank of America

📅 10/2018 - 06/2019 📍 Chicago, IL

- Improved a React + Electron app used by 100+ traders, cutting load times by 20%.
- Automated ETL workflows, reducing manual effort by 60% and halving error rates.
- Refactored React components to reduce bundle size by 15% and improve UI speed.
- Shortened bug resolution time from 3 days to 1 through cross-stack troubleshooting.
- Contributed to Agile sprints with 12 engineers, meeting 100% of deliverables.

### Graduate Assistantship

Northeastern Illinois University

📅 09/2015 - 11/2015 📍 Chicago, IL

- Produced marketing materials for 20+ campus events, raising attendance by 15%.
- Coordinated events serving 500+ students with campus staff.
- Guided students to academic support resources, reducing follow-ups by 25%.

### Center Consultant

FedEx Office

📅 07/2013 - 09/2015 📍 Countryside, IL

- Processed 50+ print and shipping orders daily with 99% accuracy.
- Advised customers on project needs and solutions, improving satisfaction scores.
- Operated and maintained 10+ pieces of printing and finishing equipment.
- Trained 5+ new hires on systems, service, and data privacy protocols.

## FEATURED PROJECTS

### Vibekit

[Live Site](#) - [GitHub Repo](#)

**Tools:** TypeScript • React • Design Systems • Component Library

- Designed and built a reusable React component library focused on accessibility, reusability, and scalable design-system architecture.
- Implemented typed APIs with TypeScript to improve developer experience and maintainability.
- Established consistent component patterns and documentation to support scalable frontend architecture.

### AI Travel Agent

[Live Site](#) - [GitHub Repo](#)

**Tools:** TypeScript • Cloudflare Pages • Cloudflare Workers • OpenAI API

- Engineered a responsive React application consuming external REST APIs to deliver real-time travel recommendations.
- Built an AI-powered travel planner integrating LLMs with real-time weather, flight, and hotel data.
- Built serverless APIs and Supabase-backed persistence to deliver personalized travel recommendations.
- Optimized data fetching and application architecture for responsive user interactions.

### REST Countries API

[Live Site](#) - [GitHub Repo](#)

**Tools:** React • TypeScript • REST APIs • Vite

- Built a responsive React application consuming external REST APIs with advanced search, filtering, and region-based navigation.
- Implemented reusable components, state management, and accessible UI patterns.
- Prioritized performance, responsive design, and clean component architecture.

### Unus (UX/UI Prototype)

DePaul University — HCI 430: Prototyping and Implementation

[View Case Study](#)

**Tools:** Axure • Adobe Illustrator • Prototyping • Brand Design

- Collaborated with a project partner to design an original app concept from initial sketches through high-fidelity prototypes using Axure.
- Developed brand identity, including logo and supporting marketing materials, using Adobe Illustrator.
- Strengthened responsive web/mobile design and industry-standard prototyping practices across iterative mid- and high-fidelity design stages.

## DESIGN SYSTEMS & TECHNICAL SKILLS

Testing

Playwright, Jest, Mocha

## DEVELOPMENT PROCESS & SOFT SKILLS

Agile & Project Management

Agile Methodology, Scrum, Sprint Planning, Requirements Gathering, Stakeholder Communication, JIRA, Monday.com

Collaboration & Team Practices

Cross-Functional Collaboration, Peer Code Reviews, Training & Mentoring, Technical Writing

Problem-Solving & Adaptability

Troubleshooting, Problem-Solving, Time Management, Attention to Detail, Adaptability, Customer Service
